BABY AND ME NETWORK

Life with a new baby can be full of joys, challenges and real struggles. In our group, moms ask questions, provide support for one another, and make new friends in a safe, nonjudgmental environment. We hope that you can join us.

What moms are saying...

“Two words come to mind...completely invaluable! I don’t know what I would have done without the knowledge and support those first couple of months with Sebastian!” – Heidi

“I would not have survived my first six months as a new mom had it not been for the Mommy and Me Network. All questions, and I mean ALL were discussed, laughed at (and sometimes cried at), and answered...It was one place where you could let your guard down and actually feel you were a real mom. It was often the highlight of the week...I would urge every new mom to go to the group.” – Johanna

“Kaiser’s Mommy and Me Network group gives the reassurance, encouragement and understanding every new mom needs! I always felt so much comfort knowing that I would be truly listened to with empathy each week...My son was two months old when we began. If I had known how great it was, I would have been there sooner after my son’s birth.” – Belinda

“The Mommy and Me Network was a lifesaver! Jack and I are doing fabulous!!! Having always worked full-time, it was very hard to be home day in and day out. As an emergency room nurse it was VERY hard not to be in control of my new situation. I constantly doubted myself and my skills as a mother. The group was encouraging. I found that I was not alone in my thoughts and also learned a lot of great mommy tips.” - Perri

“I went to the Mommy and Me Network for the first six months after my son Ethan was born. I found it so helpful to be around other new moms who knew just what I was going through! I met wonderful people who I still get together with regularly.” – Kelli

“My experience with the Mommy and Me Network was extremely positive in so many ways. Not only did it build my confidence during what seemed to be an emotional daily learning curve with my newborn baby, it allowed me to share this experience with other new moms and form what I believe will be life-long friendships. The best part is that our babies are all close in age so as we graduated from this group, we formed our own group in our homes or at the park for playgroups! For this I am so grateful!” – Adriana

No good hair or makeup is required, and it’s OK to come late!
