

Investing in the Health of Our Community

2020 Kaiser Permanente Napa-Solano Community Health Grants

For more than 75 years, Kaiser has been committed to improving the health of our members, patients, and the communities we serve. Our work in the community is informed by an extensive community health needs assessment that identifies the most pressing physical, mental, and social health needs in our communities. We focus our grantmaking on areas where we can have the greatest impact, supporting local nonprofit, public health, and human service organizations that address the critical health needs of our most vulnerable residents.

In 2020, we provided a total of **\$1,263,000** in grant funding to the following organizations to support our community health funding priorities in the Napa-Solano service area.
