Your physical therapist recommends the following personalized exercise program for you. Please follow your therapist’s instructions on how often to hold or repeat each exercise. If your symptoms feel worse with any exercise, stop doing the exercise until you check with your physical therapist or your doctor.

- **On Your Stomach**
  Lie face down with your arms at your sides. Place a towel under your forehead (A), or place your hands under your forehead (B). You may also place a pillow under your stomach for comfort.
  Pillows under stomach: ______
  Time _________   Frequency _______________

- **Up on Elbows**
  Lie face down. Keep your hips on the floor, and let your back relax. Bring your body up so you are resting on your forearms.
  Hold for _________ seconds. Frequency _______________

- **Up on Hands**
  Lie face down with your hands near your shoulders. Keep your hips on the floor and let your back relax. Push your upper body off the floor using your arms.
  Hold for _________ seconds. Frequency _______________

- **Hands and Knees**
  Start on your hands and knees. Your hands should be directly below your shoulders. Your knees should be directly below your hips. Raise your tailbone toward the ceiling and let your back sag. Return to the starting position.
  Hold for _________ seconds. Frequency _______________

**Additional Instructions:**
