EXPANDING MENTAL HEALTH AND WELLNESS CARE

To provide you with more convenient mental health and wellness care, we’re opening an additional Santa Rosa location on July 31.

As part of our expansion, your provider may be moving to the new location. Please see the list provided.
The new location will offer a wide range of mental health and wellness services, including adult, child, and family services, as well as addiction medicine/chemical dependency.

Providers moving to our new location
Your provider looks forward to continuing your care at the new location. However, if you prefer to receive care at our Round Barn location, you can choose a different provider there.
