

Investing in our community

Serving the areas surrounding our Sacramento Medical Center

Our approach to community health is more than traditional corporate citizenship or philanthropy. It's the way we partner, hire, purchase, invest, and build to make a positive economic, social and environmental impact on the health of our communities.

Building healthy communities is our mission.

Here in the Sacramento area, we have identified four critical health needs where we focus our efforts:

Access to Care and Coverage

High quality, culturally and linguistically appropriate health care services in coordinated delivery systems.

Healthy Eating Active Living

Opportunities to eat better and move more as part of daily life in order to prevent and reduce the impact of chronic conditions.

Mental Health and Wellness

Social and emotional health and wellbeing, and access to high quality behavioral health care services when needed.

Community and Family Safety

Safe environments and support for individuals who are victims or at-risk of violence.

By the numbers

\$160.6 million

Total community benefit investment

\$142.9 million

Charitable care and coverage*

\$10.3 million

Grants and donations*

- WEAVE - Case Management & Advocacy Project

Examples of the Difference We Make

Anti-Recidivism Coalition (ARC)

Kaiser Permanente is helping to fund a new mental health counseling department to strengthen life skills for individuals reentering society from incarceration.

This program has helped many individuals successfully navigate the transition back into career and educational pathways, while maintaining positive relationships.

Soil Born Farms Urban Agriculture

Kaiser Permanente is helping to expand Soil Born Farms' hands-on education for youth and adults.

The Eat Your Veggies Project helps increase knowledge and ability

related to growing, purchasing, preparing, preserving and eating healthy, locally grown foods at their urban farm headquarters in Rancho Cordova.
