Kaiser Permanente Moreno Valley Medical Center Nationally Recognized with an ‘A’ Leapfrog Hospital Safety Grade For the Fourth Time in Two Years

MORENO VALLEY, Calif. – May 13, 2022 – Kaiser Permanente Moreno Valley Medical Center received an “A” [Leapfrog Hospital Safety Grade](#) for spring 2022, the fourth consecutive “A” grade earned by the Medical Center in two years. This national distinction recognizes Kaiser Permanente’s achievements in protecting patients from preventable harm and error in the hospital.

“Receiving the “A” grade for the fourth time in a row reflects the tireless commitment of our doctors, nurses, and staff to the health and safety of our patients and members,” said Vita Willett, Kaiser Permanente Senior Vice President and Riverside Area Manager. “I’m proud of and grateful to our amazing team of health care heroes for putting our patients and community first in everything that they do, and for incredibly earning top recognition while also rising to the challenges of a pandemic.”

The Leapfrog Group, an independent national watchdog organization, assigns an “A,” “B,” “C,” “D,” or “F” grade to general hospitals across the country based on over thirty national performance measures reflecting errors, accidents, injuries and infections, as well as systems hospitals have in place to prevent harm.

The Leapfrog Hospital Safety Grade is the only hospital ratings program based exclusively on hospital prevention of medical errors and harms to patients. The grading system is peer-reviewed, fully transparent and free to the public. Grades are updated twice annually, in the fall and spring.

“As our health care system continues to feel the strain of the pandemic, I thank the workforce and leadership of Kaiser Permanente Moreno Valley Medical Center for sustained commitment to patient safety, day in and day out,” said Leah Binder, president and CEO of The Leapfrog Group. “An ‘A’ Safety Grade is an outstanding achievement, and one that is not possible without a 24/7 effort by the entire health care workforce to protect patients from harm. This community should be proud.”
