

FLU SEASON

Visiting Policy

Protect yourself, our patients and others

To protect you, our patients, and others from the flu which is currently at high levels throughout Southern California, and out of an abundance of caution, we are implementing temporary visitor restrictions:

Individuals experiencing flu symptoms, and children 14 and under, including family members, are not permitted to visit at this time.

This measure is to prevent unnecessary spread of influenza and protect you, our patients and our staff.

Not feeling well? Please do not visit patients in the hospital if you have:

- A fever higher than 100 degrees
- A cough or sore throat
- Any other flu-like symptoms

Help us keep our patients and visitors safe.
Kindly visit when you feel better.

We apologize for this inconvenience and we thank you for your understanding as we work to ensure a safe environment for all who work or visit our campus.
