COVID-19 Vaccine Update

As of January 18, 2021

Consistent with state recommendations, and due to the vaccine supply shortage, we're currently vaccinating health care workers and long-term care patients.

The California Department of Public Health expanded vaccine eligibility to include everyone age 65 and older and individuals at risk of exposure at work in the following areas: education and childcare, emergency services, and food and agriculture. **Although the state announcement has expanded eligibility, our current vaccine supply is still limited, so we aren't generally vaccinating those additional populations at this time. We will reach out to you when it's your turn.**

Please register on kp.org or download the KP mobile app. If you are registered, be sure that your contact information is up to date, including your email address and telephone numbers. Rest assured, we will be reaching out to you when you become eligible for the vaccination.

We respectfully request that you DO NOT call or message your doctor's office to ask when you might be able to get the vaccine, or other vaccine-related questions.

How Phase 1a Can Get Vaccinated

Kaiser Permanente Employees	Check with your manager. Scheduling processes vary by location.
Kaiser Permanente Members – health care workers and long-term care patients	Visit kp.org/covidvaccine to schedule a vaccine e-visit . You may also call the appointment call center at 1-833-KP4CARE or 1-833-574-2273 .
Non-Kaiser Permanente Members – health care workers and long-term care patients	Call 1-833-KP4CARE or 1-833-574-2273 to request a COVID-19 vaccine appointment. The call center agent will direct you to the appropriate location and obtain a medical record number for you.

We are currently experiencing high call volumes, given the current COVID-19 crisis. You may experience longer wait times than normal. You will be asked to provide proof of employment, such as your employee ID or badge.
